

ARUP KUMAR

Backend & Data Science Engineer — Python — Machine Learning — REST APIs — Full-Stack Development
+91 7004370342 | arup36699@gmail.com | linkedin.com/in/arup-kumar-mahakud-8490b42b7 | github.com/arup74

PROFESSIONAL SUMMARY

Computer Science and Data Science undergraduate with strong foundations in Python, SQL, Data Structures, and Machine Learning. Experienced in building scalable backend modules with Spring Boot and REST APIs, and developing AI-powered full-stack platforms integrating LLM-based NLP systems. Passionate about data-driven problem solving, deep learning research, and scalable software architecture. Actively seeking Data Science and Software Engineering internship opportunities to apply analytical and programming skills in real-world environments.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Frontend: HTML, CSS, React.js

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS

Machine Learning: Deep Learning, GANs, Image Processing, Model Evaluation, NLP

Frameworks & Tools: Spring Boot, Hibernate, REST APIs, Jupyter Notebook, Git, GitHub, VS Code

Database: MySQL

INTERNSHIP EXPERIENCE

Full Stack Developer Intern — PMRG Solution (Hybrid)

May 2024 – Aug 2024

- Developed and maintained full-stack web applications using React.js, Node.js, and REST APIs.
- Built responsive frontend interfaces and integrated backend services with MySQL databases.
- Implemented authentication, API integration, and optimized application performance.
- Collaborated with remote team members using Git and Agile development practices.
- Gained hands-on experience in scalable web application development and deployment.

PROJECTS

LicenseGuard – License Inventory Management System

2024

Backend Developer — Spring Boot, Hibernate, MySQL

- Designed and developed a backend module to manage and track enterprise software licenses across an organization, improving operational visibility.
- Implemented scalable REST APIs using Spring Boot, Hibernate, and MySQL, increasing license retrieval performance by 30% through optimized database queries.
- Automated workflows for license assignment, renewal notifications, and compliance tracking, reducing manual intervention and operational overhead.

EduAI – AI Study & Doubt Solver Platform

2024

Full-Stack Developer — Python, REST APIs, LLM APIs, NLP

- Built a full-stack AI-powered study platform that integrated an NLP-based chatbot using LLM APIs to deliver context-aware, instant doubt resolution for students.
- Developed an auto quiz generator from uploaded notes using text extraction and a question-generation pipeline, accelerating student revision efficiency.
- Implemented a personalized study planner with progress tracking and spaced repetition scheduling logic, driving measurable improvement in learning consistency.

EDUCATION

B.Tech – Computer Science & Data Science

2024 – 2027

C.V. Raman Global University, Bhubaneswar

CGPA: 7.8/10

Diploma in Engineering

2024

Intermediate (12th) – T.P.S DAV Public School

2021

Matriculation (10th) – T.P.S DAV Public School

2019

RELEVANT COURSEWORK Object-Oriented Programming, Database Management Systems, Machine Learning, Operating Systems, Computer Networks
